

# LEARN ABOUT OUR **SAVE** PROGRAM!

HELPS  
IMPROVE  
SYMPTOMS  
OF **ADD,**  
**ADHD**  
& **AUTISM**  
SUCH AS:

- Speech
  - Attention
  - Behavior
  - Focus
  - Reading
  - Listening
  - Concentration
- Memory
  - Organization
  - Balance
  - Motor Skills
  - Social Skills
  - Auditory and
  - Visual Processing

The SAVE Program is an accelerated sensory integration program that combines three proven treatments for Sensory-motor, Auditory and Visual Stimulation that when applied together results in more rapid and effective outcomes than when applied separately. This three-pronged approach helps the patient to retain and expand their ability to take in, process and utilize information more efficiently.
